

INTRODUCTION

Here at Kusco-Murphy we believe in enhancing the quality of our lifestyle by refining everyday personal care down to a few simple choices.

By listening to your requests and marrying the ancient philosophies of Gaylen and Hippocrates - the original alchemist of wax, essences & oils – we have developed our first range.

We have re-interpreted ancient science resulting in hair care products that treat the heart, body and soul.

As hair and skin are both made from Keratin, we treat hair as gently as we do skin.

Our range of hair care products is multi tasking – styling, cleansing and nourishing hair with the uplifting benefits of quality essential oils.

Enjoy the sensation of invigorating sea minerals, exotic essences and fragrant blossoms every time you wash, style or pamper your hair, skin and body.

Kusco-Murphy is pleased to offer you indulgent personal care that embraces the purity of simplicity

WASHES AND RINSES

Body Boosting Wash

A re-balancing wash to help nature balance hair back to a healthy state.

Restores gloss, manageability and body to limp, lifeless hair.

Contains no harsh detergents. More like a hair cleanser it doesn't really foam up.

Simply leaves the hair squeaky clean.

Scented with Lime Blossom, Clary Sage, Rosemary and Lavender.

Recommended for: Everyday use for normal to sensitive scalps.

Application: Massage small amount into damp, wet hair. Rinse.

For best results follow with **Kusco – Murphy's** 'Delicately Nourishing Rinse'.

	orange in aroma	
Essential Oil of Tuberose Absolute	Top perfumery note. Only used in high grade perfumery.	Sweet, sensuous scent which is uplifting and refreshing

STYLING PRODUCTS

Setting Lotion

Kusco – Murphy's Setting Lotion is suitable for all hair types. Acts as a volumizer to add strength and shine.

Apply to wet hair before styling. Effective for keeping hair straight when blow waving.

If applied to dry hair creates a straight messy effect that will last all day or night.

Does not leave any build up and brushes out easily.

Kusco – Murphy's Setting Lotion delivers strong hold for hot rollers and blow wave sets.

Recommended for: All hair types. Especially for use in curling sets.

Application: To wet hair before styling. Apply small amount to roots and style as usual for lasting curls. Can be used on all hairstyles.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Ethanol	Alcohol. Organic chemical	
Propylene	Natural product from vegetation	

Cinnamon Hair Wax

A styling pomade suitable for short styles with a consistency that adds body that holds all day / night long.

A thick controlling wax made from beeswax, tree sap, cinnamon, grape seed and fennel.

To remove wax build up, apply shampoo to dry hair, massage well, rinse, repeat.

Recommended for: All types of hair. Stubborn, frizzy and unruly styles. Particularly short styles lacking in body.

Application: As needed. Massage in and styles as usual.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
Bees Wax	Pliable, soft sheen	Sweet, floral aroma
Microcrystalline Wax	Promotes flexibility, texture and shine	
Grape Seed Oil	Fine emollient. Rich in Vitamin E	
Colophony Resin	Pine resin, strengthening agent	Treats stress, fatigue and nerves
Essential Oil of Fennel	Cleanses / detoxifies. Moisturising properties	Soothing in times of stress, said to be beneficial for hormonal imbalances
Essential Oil of Cinnamon	Powerful antiseptic. Mild astringent. Anti-bacterial properties	Clears mental fatigue and listlessness. Stimulates and refreshes mind

Lavender Hair Crème

Kusco – Murphy's Lavender Hair Crème is a light pomade to be used wet or dry.

It will promote curl on wet hair and will de-frizz when scrunching.
Adds moisture to curly hair.

The setting properties allow the hair to move but stay in place.

Using a small amount on the ends is the best way to achieve texture. Using a large amount will give hair a slick look.

Kusco – Murphy’s Lavender Crème is water soluble so can be rinsed out in water.

Recommended for: All hair types depending on the desired look to be achieved. Particularly good for curly hair.

Application: Place a small amount on towel dried hair and dry with dryer or diffuser to make frizz free curls. For straight styles apply a small amount to dry hair to give straight hair more texture.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
Essential Oil of Lavender	Promotes cell growth and balances sebum.	Cleanses and calms emotions. Relieving anger or exhaustion
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Cetearyl Alcohol	Fatty alcohol emollient that provides moisture retention and protection	
Sorbolene	Moisturizes dry hair / skin	

Beach Hair

Kusco - Murphy brings the beach to your hair. This unique product gives hair texture and body.

Crushed bamboo, bergamot and coconut form and separate hair to give lasting body to modern styles.

'Beach Hair' may be used on damp or dry hair to create messy sexy hair with the added benefit of essential oils. This product is non-photosensitising.

Recommended for: All hair types and styles.

Application: Style hair as you would do normally.

Once dry, apply a small amount to your hand and scrunch into mid-lengths of hair with your fingers until the product dries (about 5 seconds.)

You will feel at once that your hair has more strength.

Keep moulding until you have the desired effect, rubbing the ends leaves a soft textured effect.

The more 'Beach Hair' you apply, the stronger the hold

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Carbomer	Environmentally friendly polymer used to build viscosity in lotions and gels	
Bamboo Extract	Creates physical texture	Stimulant, aphrodisiac properties
Essential Oil of Bergamot	Antiseptic qualities. Clarifies oily complexions, helpful in treating scalp disorders	Uplifting, treats listlessness, depression, anxiety and nervousness. Instils confidence and helps maintain emotional control

Algae Extract	High in Amino Acids. Helps reconstruction of hair and skin. Promotes shine	

Rockster Hair

Kusco – Murphy’s ‘Rockster Hair’, is the latest in hair technology coupled with the latest in aromatherapy.

‘Rockster Hair’ gives you fuller hair with a glorious sheen.

Scented with Essential Oils of Grapefruit, Orange, Patchouli and Tangerine, this product leaves the hair conditioned with the sweet smell of citrus extracts.

‘Rockster Hair’ is suitable for fine hair that needs a body and extra definition.

Kusco – Murphy’s ‘Rockster Hair’ leaves the hair full, soft and light, with body like never before

The product does not contain oil so it won’t flatten your hair.

Recommended for: Hair that needs extra texture.

Application: Can be used on wet or dry hair. For wet hair, apply a small amount on to your fingertips, distribute evenly, then dry to achieve body like never before.

For layered hair massage a small amount into ends for added texture. Allow the product to dry while moulding to achieve fuller, fabulous hair.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Essential Oil of Orange	Tones skin. Helps clear toxins, encourages youthful, radiant complexions	Lively, uplifting and refreshing scent. Helps soothe and clear the mind, banishing negativity and inspiring soul revival
Essential Oil of Grapefruit	Promotes hair growth, stimulates tissue regeneration	Generally uplifting effect. Slightly euphoric and hypnotic and may help to stabilize the manic-depressive. Restores balance

Essential Oil of Patchouli	Aids tissue regeneration. Soothes inflamed, dry and cracked skin. Benefits acne and scalp disorders	Promotes sense of balance. Sharpens wits and dispels lethargy. Helps clear the mind and soul
Essential Oil of Ylang Ylang	Has balancing effect on sebum. Tonic and stimulating effect on scalp. Promotes hair growth	Pacifies mind. Alleviates and soothes anger, jealousy and frustration. Sensuous oil which seems effective against introversion and emotional coldness with aphrodisiac properties
Ginseng Extract	Binding agent that assists hold when styling. Helps hair withstand physical and heat related stress	
Citrus Seed Extract	Rich in vitamins and antioxidants. Promotes healthy shiny hair	Refreshing and uplifting scent

Essential Oil of Clove	Powerful antiseptic.	Warm, fruity, spicy aroma said to stimulate mind and memory, relieves tension and nervous exhaustion

Bedroom Hair

Kusco – Murphy's 'Bedroom Hair' is the equivalent of a 'Roll in the Hay' in a jar.

The look is a subdued, sensual one, while extracts of Green Tea, Cassia and Lemon Balm fill the hair with an exotic scent.

This product will allow the hair to look crushed but still have an amazing amount of hold.

The beauty of this product is that it has moisturising qualities that allows the hair to have a messed up glamour.

The product remains invisible, with the effective holding power of a spray or gel, and will not flake or go stiff.

The unique molecular structure allows the hair to move and hold at the flick of the wrist.

The amazing holding power of **Kusco – Murphy's 'Bedroom Hair'** will keep your style in place while infusing your hair with a sensual scent.

Application: Simply rub into the ends of mid-length hair until the product has dried into styled hair. 'Bedroom Hair' will soften your style instantly.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Lanolin	Emollient that enhances moisture content and protects against humidity. Smoothes and softens	
Essential Oil of Ylang Ylang	Has balancing effect on sebum. Tonic and stimulating effect on scalp. Promotes hair growth	Pacifies mind. Alleviates and soothes anger, jealousy and frustration. Sensuous oil which seems effective against introversion and emotional coldness with aphrodisiac properties
Green Tea Extract	Softens and gives suppleness to hair and skin by providing moisture	
Essential Oil of Rose Absolute	Antiseptic, antispasmodic, antiviral, astringent, bactericidal properties	Anti-depressant and aphrodisiac properties. Warms the heart, stimulating deep feelings, affection and sexual desire. Calms and soothes the over-emotional

Orange Flower Absolute	Astringent qualities to combat dull and oily complexions	Stimulates and revitalizes
Citrus Seed Extract	Rich in vitamins and antioxidants. Promotes healthy shiny hair	Refreshing and uplifting scent
Essential Oil of Cassia	Most powerful antiseptic of all oils	Warmer and sweeter than cinnamon. Spicy fragrance stimulates mind and body awareness. Dispels depression and fatigue
Essential Oil of Lemon Balm	Regulates oil production. Anti-fungal and detoxifying properties	Mind stimulant

Tart Hair

Kusco - Murphy have whipped up a heavenly delicious tart for your hair.

'Tart Hair' / Sculpting Clay combines a unique blend of Tangerine, Geranium and Bergamot Citrus to saturate your hair with a divinely enticing fragrance.

Enriched with Aloe Vera and Macadamia Oil to promote hair softness, this thick tart consistency clay will provide an outstanding amount of hold for your luscious locks.

An exceptional product that is fantastic for use in medium to super short styles.

Achieve a shaggy, messy look for your tantalising tresses.

The more you use, the stronger the sculpting power; for a voluptuous look that lasts.

'Tart Hair,' while invisible in your hair leaves a matte finish that rinses out in water.

Application: Simply apply to damp or dry hair and sculpt and mould until you reach your desired effect.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP / VA Copolymer	Creates humidity resistant film. Used for hold and style	
Marigold Extract	Antibacterial, healing properties	
Aloe Extract	Soothes skin irritations. Promotes hair growth, slows hair loss. Hair tonic to produce abundant and luxurious hair.	
Macadamia Oil	Highly nourishing. Moisturising, softening	
Carbomer	Environmentally friendly polymer used to build viscosity in lotions and gels	
Allantion	Derived from Comfrey Herb, used in many hair and skin products for its healing properties and ability to stimulate growth of healthy tissue.	Soothing, calming

Essential Oil of Bergamot	Antiseptic qualities. Clarifies oily complexions, helpful in treating scalp disorders	Uplifting, treats listlessness, depression, anxiety and nervousness. Instils confidence and helps maintain emotional control

Ice Wax

Kusco – Murphy's new soft textured wax retains a pliable style memory while delivering sheek, shimmering, satin results.

A rich and creamy concoction of Macadamia Oil, Cocoa Butter, Shea Butter and Bees Wax, this is a fantastic product for softening, controlling and restoring moisture to dry, stubborn and unruly hair.

This formula is a delicate combination of Essential Oils and Extracts chosen specifically to balance the moisturising properties in the wax, without leaving hair and complexion oily. This luscious product is infused with Lime, Bergamot and Ylang Ylang, which whilst having a tonic and stimulating effect on the scalp, balancing oily and dry complexions, provides a refreshing, uplifting and lasting fragrance in your hair.

A unique combination of the zesty tang of Lime and Bergamot, merged with the warm, euphoric and aphrodisiac properties of Ylang Ylang and Vanillin Extract, to provide a surprisingly stimulating and sensuous aroma to soothe, yet excite, the hair, skin and soul.

Recommended for: Best used in short to medium length hair to produce sheek, shiny and satin results.

Application: Rub into hair to carve your individual style. Ice Wax grips your hair with a brilliant silky sheen for that cutting edge look.

New Releases

Introducing **Kusco – Murphy’s**

‘O’ssential Collection

SLS & SLES Free

Purely Natural...

For people who care for their hair.

Revive with **Kusco – Murphy’s** ‘O’ssential Collection to produce beautiful, healthy hair that only nature can provide.

‘O’ssential Wash

SLS/SLES Free - Purely Natural

A re-balancing wash that utilizes the medicinal and rejuvenating properties of nature's best to gently cleanse the hair and scalp, while replenishing diminished essential vitamins, proteins and minerals.

Kusco – Murphy's 'O'ssential Wash contains beautiful botanical extracts which cleanse and enliven hair structure to revitalize the natural beauty of your hair.

Essential Oils of Ylang Ylang and Rose Geranium penetrate and soothe damaged hair cuticles, restoring moisture and strength to produce naturally shiny, healthy hair.

Simply apply to wet hair, work through and rinse with water.

For best results follow with **Kusco – Murphy's 'O'ssential Rinse**.

Citric Acid	Nature identical. Provides pH balance.	
PEG-7 Olive Oil	Nature's antibiotic. Fights bacteria.	

STYLING NEW RELEASE

Kusco – Murphy On the Prowl

Unleash your wild side with **Kusco – Murphy's**

Alley Paste

An incredibly versatile texturizing cream that redefines pre-existing concepts of hair texture, shape and form.

Designed specifically for styling ease; this product allows you to define, separate, piece and control strands and curls for creating humidity defying, texturized and well-defined styles that will not stiffen or flake, or leave a sticky residue in hair. **Perfect for taming wild manes.**

Strengthening and creating elasticity in hair structure, this suave yet subtle styling paste adds body, shine and shape to all hair types and styles.

A pliable paste that introduces flexibility to your style, holding and smoothing fly-away hair yet leaving it with the freedom to move. Deceptively sweet, with a frangipani scent, Alley Paste creates styles full of attitude with a sexy matte finish.

Ever wish your style had nine lives? Alley Paste's unique styling pliability allows you to re-manipulate your style, working, reworking and changing your look as often as required without having to constantly add more product.

This product utilizes a revolutionary two phase drying system in which product initially begins setting quickly in hair, giving required styling hold; then slowing to maintain styling flexibility, allowing you to shape and form.

Application: For more natural styles with a softer hold and shine, only apply small amounts. For further hold and texture keep working product into scalp and ends, piecing and separating strands or curls with fingers until you reach styling satisfaction. Alley Paste will adhere to your personal requirements, intensifying its properties as more product is added.

Get in touch with your animal instincts.

Style your way to raunchy, frizz-free locks packed with

Kusco – Murphy attitude.

<u>KEY INGREDIENT</u>	<u>BENEFITS</u>	<u>THERPAUETIC PROFILE</u>
PVP/VA Copolymer	Creates humidity resistant film, without tacky results. Used for hold and style.	
Ceteareth-20	Derived from vegetable and used as emulsifier	
Lanolin	Emollient that enhances moisture content and protects against humidity. Smoothes and softens.	
Carnauba Wax	Derived from palm leaf. Adds texture and shine	
Dimethicone	Derived from plant, seals hair strands and adds shine	
Xanthan Gum	Creates viscosity control in product	
Frangipani Fragrance		Sweet and seductive scent
Citric Acid	Nature identical. Provides pH balance.	

INGREDIENTS

Amino Acids

The body's building blocks from which proteins are constructed. Amino Acids penetrate and nourish, helping to re-construct dry and damaged hair.

Ammonium Laurel Sulfate

A mild anionic surfactant that gently removes oil and dirt. Derived from natural coconut alcohols.

Benzyl, Methyl, Propyl Parabens

The most commonly used preservatives in all cosmetic products. Non-irritating and non-poisonous. Derived naturally.

Benzophenone 4

Sunscreen to protect against harmful UV Rays

Carbomer

A new polymer known as Carbopol Ultrez 10, this environmentally friendly polymer helps build viscosity in lotions, creams and gels.

Centrimonium Chloride

An anti-static conditioning agent and emulsifier.

Cetearyl Alcohol

A fatty alcohol emollient that provides moisture retention and protection.

Ceteth 20

An emollient and emulsifier derived from fatty alcohols.

Cetyl Trimethyl Ammonium Chloride

An antimicrobial preservative which destroys and prevents the growth of germs.

Cocoamidopropyl Betaine

Exceptionally mild amphoteric surfactant. Foaming, cleansing and moisturizing agent which improves the condition of the hair. Made from coconut oils and beets.

Colophony Resin

A strengthening and cleansing agent.

Dimethicone

A silicone oil which moisturizes and protects, leaving the hair shiny and tangle free.

Ethanol

Organic chemical.

Hydrolyzed Keratin Protein

Keratin proteins strengthen and add support to the hair while restoring moisture and shine. Keeps the hair tangle free.

Magnesium Laureth Sulfate / Sodium Laureth Sulfate

Mild anionic surfactant, widely used in baby and other non-irritating shampoos. Gently removes the dirt without stripping natural oils.

Magnesium Oleth Sulphate / Sodium Oleth Sulphate

Derived from natural mineral salts and fish oils, these ingredients lower the water's surface tension allowing better absorption and penetration.

Mica Iron Oxides

Manufactured from tiny pieces of mica, which have a glittering effect in lotions, creams and gels.

Octyl Methoxycinnamate

UV absorber and sunscreen. Derived from cinnamic acid which occurs naturally in Peru Balsam and Cinnamon leaves.

Polysorbate 20

Derived from lauric acid, a common constituent of vegetable fats. It stabilizes essential oils in water.

PVP/VA Copolymer

Polymer most widely used in styling gels and lotions. Creates humidity barrier. Clear and shiny films can be created without tacky results.

Emollients (Softeners)

Allantion

Derived from the Comfrey Herb, Allantion is used in many hair and skin preparations for its ability to heal wounds and stimulate healthy tissue growth.

Aloe Vera Gel

Contains healing properties which help soothe skin irritations. Promotes hair growth, arrests hair loss. Recommended as hair tonic for abundant and luxurious hair.

Bitter Almond Oil

An emollient which penetrates and softens the hair, restoring lustre and shine.

Carrot Seed Oil

Rich in vitamin A, which restores the texture and elasticity of the hair and skin.

Cocoa Butter

Helps restore and retain moisture. Lubricates and softens skin.

Grape Seed Oil

A fine emollient, added to lighten the texture of the cinnamon wax.

Ground Bamboo

Herb which acts as a stimulant, astringent, tonic and aphrodisiac.

Guar Gum

A thickening agent to boost body and fullness.

Honey

A natural emollient high in vitamins, minerals and potassium. It nourishes and seals in moisture, leaving the hair silky and smooth.

Lanolin

This emollient enhances the moisture content of hair. Smooths and softens hair as well as acting as a humidity protector.

Macadamia Oil

Highly nourishing, recommended for dry and maturing skin which begins to dry with age as sebum production diminishes.

Microcrystalline Wax

Fine grained silicone structure which gives flexibility, shine and texture when mixed with hard waxes.

Olive Oil Esters

Nature's antibiotic. Mild anti-bacterial properties.

Paraffin Wax

Used for adhesion and hold in styling products.

Sea Minerals

High in amino acids to aid reconstruction and to promote shine. Vital for health and well-being. Sea Minerals help to maintain hormonal balance.

Sorbolene

Moisturising/ Soothing and softening dry hair.

Siberian Ginseng

Helps hair and skin to withstand stress. Used as a binding agent and also to assist hold in styling products.

Vegetable Glycerin

Humectant. Retains moisture and softens hair and skin. Has rich oily texture but is water soluble and is hypoallergenic and creates suppleness.

Vegetable Waxes

Adds a fine coating to the hair which seals and protects, preventing breakage and split ends.

EXTRACTS

Algae

High in amino acids. Algae Extracts helps in hair and skin reconstruction. Promotes shine. Aids in treatment of psoriasis and eczema.

Burdock Root

Revitalizes and protects the hair while treating the scalp and preventing a build up of natural oils. Rich in minerals, it is commonly used to soothe the skin and treat minor cuts and infections.

Calendula Oil

An emollient which softens the hair leaving it shiny and manageable. Soothes and repairs damaged hair and skin.

Chamomile

For centuries Chamomile has been used for its healing and purifying properties. It helps to strengthen the hair and restore luster while enhancing highlights in fair hair. Its soothing scent relaxes the nerves to alleviate stress and strain.

Citrus Seed

Rich in vitamins to promote healthy shiny hair. Citrus seed extract is a natural anti oxidant and is used as a preservative.

Green Tea

High in anti-oxidants. Softens and gives suppleness to skin and hair while providing moisture.

Horse Chestnut

An astringent which aids in balancing sebum production. Horse chestnut contains Escin, which is commonly used as a sunscreen.

Ivy

Used in scalp treatments as an anti dandruff and to balance natural oils. Ivy extract gently conditions the hair and restores shine.

Lime Blossom

Lime has antiseptic properties and has a fresh and sweet fragrance. Contains moisturizing properties to soften, smooth and comfort skin and hair.

Marigold

Antibacterial and said to have healing properties. Used for promotion of granulation in styling products.

Nettle

Stinging Nettle is said to contain anti-inflammatory properties. It also slows hair loss, stimulates hair growth and improves hair condition.

Olive Leaf

A broad spectrum anti-microbial agent.

Rosemary

Fresh and woody herbal fragrance which is known to combat mental fatigue, nervous tension and amnesia. Helps to stop oily hair, dandruff, hair loss and is a wonderful skin toner.

Vanilla

A warm and luxurious fragrance with aphrodisiac properties. Relaxes and reduces nervous tension.

ESSENTIAL OILS

Bergamot

Fresh fruity, slightly spicy aroma of Bergamot. Non-photosensitizing. Helps fight against anxiety, depression and stress. Cleanser with some antiseptic and deodorant properties.

Cinnamon

The warm uplifting scent of cinnamon is used to treat depression and fatigue and thought to increase spiritual and mental awareness. It was once believed that it would enhance one's physical ability.

Clary Sage

The sweet stimulating scent of Clary Sage is widely thought of as an anti-depressant. It soothes the nerves and is said to counter insomnia and fear.

Clove

One of most powerful natural antiseptics. Warm, spicy and fruity aroma which is said to stimulate mind and memory. Relieves mental fatigue and nervous exhaustion.

Fennel

One of the earliest known herbs, fennel has long been used to cleanse and detoxify. It also has moisturizing properties and the fragrance is said to calm PMS moods and emotions related to hormonal imbalances.

Geranium

Physically and emotionally balancing, it is said to slow skin's aging and settle oil production.

Grapefruit

Stimulates neurotransmitters that release emotions. Causes slight feeling of euphoria while combating depression, headaches and nervous exhaustion. Promotes hair growth and clears congested oily skin by toning skin tissue.

Jasmine Absolute

The scent of romance. An energizing uplifting fragrance which is said to release inhibitions and promote love and romance. Commonly used as an aid to meditation and visualization.

Lavender Absolute

Lavender has been used for centuries as a vital ingredient for medicine and perfume. Its relaxing and balancing scent relieves headaches, nervous tension and insomnia.

Lemon

Cheerful and head clearing, the essential oil of lemon is used to restore humor and decisiveness. Its scent is thought to brighten up one's physical atmosphere creating positive energy and enthusiasm.

Orange

Perky, lively scent uplifts, reduces anxiety and helps lower high blood pressure. Said to combat dull and oily complexions, encouraging youthful, radiant skin.

Patchouli

Rejuvenates skin cells, used in treatment of dry, cracked skin and skin prone to acne problems and helps to eliminate dandruff. This woody, earthy fragrance is said to help combat depression, anxiety and stress.

Peru Balsam

A sweet balsamic essential oil that has a warm lingering fragrance. This oil enhances the effects of other essential oils.

Rose Absolute

Calming, ideal for sunburns. A cleansing and toning agent that maintains pH balance and stimulates regeneration process.

Rose Hip

A natural moisturizer for dry, sensitive allergic, sun damaged hair and skin.

Sage

Once considered a magical herb with powerful healing properties. Sage has a stimulating, warming scent, which acts on the nervous system to calm nerves and relieves stress

Tangerine

With a sweet, sparking fresh aroma, this oil is said to soothe, inspire and strengthen.

Vetiver Bourbon

Calming oil which helps maintain hormonal equilibrium while providing antiseptic and moisturizing properties.

Ylang Ylang

Relaxing and nurturing to the mind and spirit. Ylang Ylang is used to create a harmonious atmosphere, warding off fear, anger and pain.

VITAMINS

A

Derived from carrot seed oil, this vitamin has anti-bacterial properties and it also restores texture and elasticity.

B3

Also known as Niacin this is vital for cell respiration. Clears organic poisons.

B8

Also known as Folic Acid, assists cells to replicate normally and keeps homocysteine level in blood from rising.

E

Aids in moisturizing hair, major anti-oxidant nutrient and helps nourish skin cells.

F

Promotes shiny hair. An essential fatty acid, this vitamin promotes youthful appearance to skin.

H

Also known as Biotin, this vitamin promotes healthy hair and combats thinning hair and hair loss.
